

ANDREW GURRY

U.S. Army Master Sergeant | Knowledge Management Officer | Inspector General & Compliance | Process Automation | IT / CompTIA A+ Certified

Sierra Vista, AZ | me@andrewgurry.com | AndrewGurry.com | Phone: [add phone] | LinkedIn: [add LinkedIn]

PROFESSIONAL SUMMARY

Senior Army leader with 25+ years of experience in operations, quality assurance, Inspector General functions, training management, logistics, maritime operations, deployment leadership, process improvement, and practical IT/process automation. Department of the Army Inspector General of the Year finalist and MBA graduate with a record of turning complex, recurring problems into clear systems: workflows, dashboards, trackers, SOPs, training programs, reporting tools, accreditation readiness products, and low-code automation. Seeking post-retirement opportunities in consulting, DoD Inspector General/oversight, operations, quality assurance, compliance, program analysis, IT support, automation, and military-support roles. CompTIA A+ certified and planning Microsoft PL-900, CompTIA Network+, and CompTIA Security+; especially interested in programming, cybersecurity foundations, Microsoft 365, SharePoint, Power BI, Power Automate, and practical tools that help teams work better.

CAREER TARGET

Consulting / Process Automation	DoD IG / Oversight / Compliance	IT / Automation / Programming Path
Workflow cleanup, SOPs, dashboards, trackers, Microsoft 365, SharePoint, Power BI, Power Automate, process documentation, training systems, and knowledge management.	Inspector General operations, assistance cases, inspections, investigations support, due process, corrective actions, compliance reviews, command reporting, and organizational improvement.	IT support, systems support, business analysis, low-code automation, basic networking, Linux/Apache, GitHub Pages, HTML/CSS, WordPress, scripting, programming projects, and cybersecurity foundations.

CORE COMPETENCIES

- Consulting, process improvement, workflow mapping, practical automation, staff-process cleanup, and handoff design
- DoD Inspector General operations, assistance cases, inspections, investigations support, due process, senior leader reporting, and command climate / systemic-issue analysis
- Quality assurance, accreditation readiness, AEAS, compliance tracking, corrective action systems, and inspection preparation
- IT and automation interests: Microsoft 365, SharePoint, Microsoft Lists, Power BI, Power Automate, Excel, GitHub Pages, HTML/CSS, WordPress, Linux, Apache, basic networking, scripting, and programming projects
- CompTIA A+ certified; Microsoft PL-900, CompTIA Network+, and CompTIA Security+ planned
- Training management, onboarding, knowledge management, SOPs, continuity binders, job aids, videos, and practical adult learning products
- Operations leadership, readiness reporting, logistics, DTS/GTCC/ADOS-style workflows, orders, travel, resources, risk management, and high-value equipment accountability

SELECTED CAREER IMPACT

- Supported 9,000+ Soldiers, staff, and command teams across Inspector General and command-assistance responsibilities.
- Delivered or supported training available to 5,000+ instructors, leaders, and Soldiers through IG Brown Bags and professional development sessions.
- Supported more than 70 investigations and assistance cases while helping ensure fairness, regulatory compliance, and due process.
- Led 15+ Brigade QA assessments and supported accreditation readiness, instructor readiness, AEAS execution, and PREP workshop efforts.
- Restored Brigade instructor reporting accuracy from 50% to 100% through data correction, process cleanup, and training videos.
- Built an automated Brigade S3 tasking system, accreditation readiness tool, systems-access tracker, outprocessing survey system, and other practical tools to improve visibility and accountability.
- Led Soldiers on 50+ combat convoy missions safely and without incident during Iraq deployment operations.
- Managed or supported Army watercraft, maritime, logistics, JLOTS, demobilization, and vessel operations involving high-value equipment and safety requirements.

PROFESSIONAL EXPERIENCE

Knowledge Management Officer | 1st Brigade (Multi-Functional Training), 95th Training Division / USAR Military Intelligence Center | Fort Huachuca, AZ | 2025-Present

- Lead Brigade QA support for Army school quality assurance, instructor readiness, accreditation preparation, AEAS execution, QA assessments, and training management requirements.
- Corrected Brigade-wide TTRRS reporting issues, restored reporting accuracy to 100%, and created step-by-step training videos to prevent recurrence.

- Built an automated Brigade S3 tasking system and accreditation readiness tool to improve visibility, ownership, inspection preparation, and compliance tracking.
- Maintained mission continuity during staffing gaps by supporting IPPS-A, ADOS, DTS, GTCC, RLAS, access, and administrative actions with high accuracy.
- Applies process-improvement and IT-minded problem solving to reduce manual follow-up and make reporting, tasking, and compliance easier for users and leaders.

Inspector General NCO / IG NCOIC | 80th Training Command (TASS) | Richmond / North Chesterfield, VA | 2022-2025

- Supported IG operations for a training command with three subordinate divisions, 19 brigades, 35 battalions, five TASS training centers, and regional training sites.
- Received, processed, and helped resolve requests for assistance; supported investigations, inspections, inquiries, assistance cases, teaching/training, and senior leader reporting.
- Assisted with 70+ investigations and assistance cases while helping ensure fairness, due process, documentation, and regulatory compliance.
- Helped complete three Annual Inspection Reports briefed to the Commanding General, synthesizing findings, recommendations, historical trends, and command priorities.
- Planned, coordinated, and executed IG Brown Bag training sessions available to 5,000+ Soldiers, instructors, and leaders; created templates, SOPs, webinars, and knowledge-management products.
- Selected as the sole U.S. Army Reserve IG NCO finalist for the 2024 Department of the Army Inspector General of the Year competition.

Operations and Training NCOIC | Mission Command Technologies Integration Detachment, Office of the Chief of Army Reserve | Fort Belvoir, VA | 2020-2021

- Served as primary planner and operations/training NCOIC for a specialized detachment; advised the command team on training, schools, certification, and mission requirements.
- Managed training requirements for 33 personnel, including school seats, training events, DTMS, ATRRS, RLAS, DTS, TAMIS, and unique platform training.
- Stood up operations, training, and finance processes for a new detachment; developed multi-year budgets, certification programs, online learning, and continuity products.
- Maintained 100% completion of mandatory training and built practical systems for mission planning, budgets, travel, training, and continuity.

Vessel Master / Section Chief / Army Watercraft Leader | 1301st Transportation Detachment and Army Watercraft Organizations | Fort Belvoir, VA | 2017-2020

- Led Army watercraft crews and vessel operations as Vessel Master, Coxswain, Section Chief, and senior deck leader; accountable for vessels and equipment valued in the millions of dollars.
- Maintained vessel safety, operations, navigation, records, environmental stewardship, maintenance, training, and equipment accountability requirements.
- Safely supported dozens of missions and hundreds of nautical miles; strengthened vessel readiness, PMCS, licensing, training, work orders, and safety systems.
- Created a web-based support system for watercraft operators and engineers, improving access to operational information and technical guidance.
- Earned Senior Army Mariner recognition, multiple Army Sea Duty Ribbon awards, and Driver and Mechanic Badge with Operator-S Device for 500 hours of accident-free special equipment operation.

Marine Operations NCO / Brigade Operations Support | 3rd Transportation Brigade (Expeditionary) | Fort Belvoir, VA | 2015-2017

- Supported brigade operations for a transportation organization of 600+ Soldiers; managed or supported USR reporting, military education metrics, TAMIS, ammunition, orders, travel, vouchers, and budgets.
- Created a brigade orders process and trained eight subordinate units on producing orders, travel authorizations, and voucher requirements.
- Helped increase duty qualification readiness from 72% to 90.2%; processed 200+ administrative actions during a staffing gap.
- Led or supported transportation, sustainment, demobilization, cargo download, inventory, and nationwide move missions that improved readiness and saved resources.

Earlier Army Transportation / Deployment Leadership | United States Army and Army Reserve | Various Locations | 2000-2015

- Served across watercraft, transportation, deployment, detachment, and squad leadership roles; developed a foundation in mission execution, risk management, logistics, and Soldier care.
- Deployed to Kuwait in 2003 and Iraq in 2006-2007; led Soldiers on 50+ convoy missions safely and without incident.
- Supported Joint Logistics Over-the-Shore, Pacific Strike, Operation Iraqi Freedom, vessel operations, sustainment, and campaign/expeditionary missions.

- Earned Best Warrior recognition, Soldier of the Month recognition, Distinguished Honor Graduate performance, and early Good Conduct / service awards.

SELECTED PROJECTS AND TOOLS

- TTRRS Reporting Recovery: corrected inaccurate instructor reporting and created training videos to make the process repeatable.
- Automated Brigade S3 Tasking System: improved staff task tracking, ownership, deadlines, and leader visibility.
- Accreditation Readiness Tool: improved inspection preparation and reduced discrepancies through a structured readiness tracker.
- IG Teach and Train / Brown Bags: built recurring training to convert complex requirements into practical, accessible guidance.
- Systems Access and Requirements Tool: created a user-friendly tool for systems access, training, renewal timelines, and requirements tracking.
- Programming and IT Projects: built AndrewGurry.com with GitHub Pages / HTML / CSS; maintain WordPress site A-A Events; experiment with Linux, Apache, networking, home lab tools, and practical automation projects.

MILITARY AWARDS AND RECOGNITION

- Finalist, 2024 Department of the Army Inspector General of the Year Competition; sole U.S. Army Reserve IG NCO selected as finalist.
- Meritorious Service Medal; Army Commendation Medal; Army Achievement Medal; Army Good Conduct Medal; Army Forces Reserve Medal; Army Reserve Components Achievement Medal; Meritorious Unit Commendation.
- Senior Army Mariner; Army Sea Duty Ribbon; Driver and Mechanic Badge with Operator-S Device; former wartime service, campaign, expeditionary, and deployment recognition.
- Distinguished Honor Graduate, Advanced Leader Course; Commandant's List, Senior Leader Course; Commandant's List, Battle Staff NCO Course; Best Warrior / NCO of the Year recognition.

EDUCATION, CERTIFICATIONS, AND PROFESSIONAL DEVELOPMENT

- Master of Business Administration (MBA), Finance Focus, Honors - American Military University.
- Bachelor of Science, Business Administration, Finance Focus, Cum Laude - Old Dominion University.
- Associate Degree, Business Administration, Summa Cum Laude - Thomas Nelson Community College.
- CompTIA A+ certified; Microsoft PL-900, CompTIA Network+, and CompTIA Security+ planned.
- Military education includes Advanced Leader Course, Senior Leader Course, Battle Staff NCO Course, Master Leader Course, Advanced Inspector General Course, Whistleblower Reprisal Training, and Automated Inspection Program training.
- Former less-than-200-ton Near Coastal Master license / Army maritime credentialing background.

TECHNICAL SKILLS

Microsoft 365 | SharePoint | Microsoft Lists | Power BI | Power Automate | Excel | Word | PowerPoint | GitHub Pages | HTML/CSS | WordPress | Linux | Apache | basic networking | workflow design | dashboards | SOP development | data cleanup | process mapping | knowledge management | programming and automation projects | Security+ planned before retirement

CONSULTING FOCUS

- Workflow mapping, process cleanup, SOPs, continuity planning, and handoff design for teams with recurring problems.
- Dashboards, trackers, compliance checklists, readiness reports, task logs, inspection trackers, and leadership visibility tools.
- Training systems, onboarding guides, job aids, knowledge bases, and low-code Microsoft 365 solutions.
- Military-support consulting, DoD IG/oversight support, QA/compliance readiness, and practical IT/automation support for teams that need simple tools and clear standards.

Note: Public resume intentionally omits DOD ID, home address, private phone numbers, signatures, and other sensitive administrative information from personnel records.
